## **A NEW ERA OF OUTDOOR CLIMATE COMFORT**

Tru View is one of the newest and most exciting breakthroughs in patio cover technology. It allows maximum light efficiency while blocking harmful Ultra Violet rays at the same time.

## **INSTALLATION**

Installation is a breeze, typically completed within a two-day period, minimizing disruption to your outdoor enjoyment.

## **RESIDENTIAL**

- Extend outdoor living space
- Patios, pool areas & courtyards
- Rooftop structures

## **COMMERCIAL**

- Restaurants
- Office
- Shade Canopies

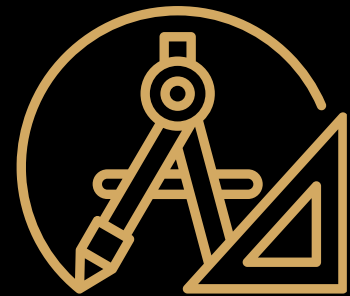

## ***TIMELESS BEAUTY***

Tru View covers and components are available in curated colors to fit all design styles.

## ***DESIGN AND ENGINEERING***

From sleek, modern designs to classic styles that blend seamlessly with any home exterior, each project showcases the quality craftsmanship and attention to detail that sets us apart.

## ***ELEGANT DESIGN***

Designed to go beyond the expected, Tru View Patio Covers boast complete rain protection with a built-in gutter system, ensuring you can relish your outdoor space even in inclement weather.

## ***VIRTUALLY MAINTENANCE FREE***

Designed to be low-maintenance, utilizing durable acrylic panels and sturdy aluminum frames that resist rust, corrosion, and UV damage.

## ***RAIN PROTECTION***

Don't let rain spoil that outdoor gathering—create some extra living space for your home.

Produced from the most weatherable polymer on the market, ACRYLITE® acrylic sheet outperforms other covering products like fiberglass, polycarbonate and PVC product.

## ***ALUMINUM FRAMING***

Fully engineered, structural aluminum framework is easily adaptable to suit virtually any application

## ***SOLAR CONTROL***

Protect your deck or favorite outdoor environment, cover a spa or pool while still enjoying natural light. Block the harmful UV rays without blocking the light from nearby doors and windows.
